The celebrated New England remedy for Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all diseases arising from a disordered stomach, Liver or bowels.

They are used and recommended by the leading Physicians of the Country, and all who use them pronounce them invaluable.

Dr. JAMES L. LEEPER writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Commissioner at Williamsport, O., says: "They give satisfaction. I use them myself, having taken cold, become prostrated and lost my appetite. It relieved me, and I can recommend it with great assurance of its merits."

Dr. W. M. KERR, of Rogersville, Ind., writes us that they are the valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart and general debility.

THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter, under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character, after taking a few bottles I was completely restored, and am now in robust health."

G. W. HOFFMAN says he was afflicted with rheumatism for twenty years in all its various forms, and at the date of this letter he has been two years well; the Bitters effecting a cure, when several Physicians attending him could do him no good. He says, "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where Fever and Ague prevail) that he most cheerfully recommends them of decided merit in cases of Fever and Ague, Dyspepsia and General Debility.

D. K. GALLUP writes, "I write from Van Wert, O. I must respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

### THE ONLY DISCOVERY

WORTHY OF ANY CONFIDENCE FOR

### Restoring

### THE BALD AND GRAY!

Many, since the great discovery of Prof. Wood, have attempted not only to imitate, but to improve, but have failed to discover something that would produce results identical; but they have all come and gone, being carried away by the wonderful results of Prof. Wood's preparation, and have been left to leave the field to its restorer. Read the following:

Bath, Maine, April 18th 1860.

Prof. O. J. Wood & Co. Gentles: The letter I wrote you in 1856, concerning your valuable Hair Restorative, and which you have published in this vicinity and elsewhere, has given rise to numerous inquiries touching the facts in the case. The inquiries are, first, is it a fact of my habitation and name, as stated in the communication; second, is it true of all the hair contained in the letter colored; the third is true of my whiskers, and the only cause why it is not generally true is that the substance is washed off by frequent ablution of the face, when it is used by wiping the face, in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good; as there is so much trouble in the manufacture and sale of various compounds as well as this, it has no doubt been hesitantly initiated and been used, not only without any good result to those who use it, but it has not been used by me. I have not used any of your Restorative of my account for some months, and yet my hair is good as ever, and I have not been induced to try another for which I am very grateful. I gave it to my friends and thereby induced them to try it, many were skeptical until after trial, and then purchased and used it with universal success. I will ask as a favor, that you send me a test by which I can discover fraud in the Restorative, sold by many, I fear without authority from you. A pure article will make success and I believe where good effects do not follow the failure is caused by the use of an article which carries the name of the Restorative, but is not the Restorative. I deem it my duty as heretofore to keep you apprised of continued effect on my hair, as I assure all who enquire of my unshaken opinion of its value to them. I remain, dear sir, yours, A. C. RAYMOND.

Ansons, N. H., Nov. 3rd 1858.

Prof. O. J. Wood: Dear sir—I would certainly be doing you a great injustice not to make known to the world, the wonderful results as well as the experience I have experienced from using one bottle of your Hair Restorative. After using every kind of Restorative, but without success, and finding my hair nearly gone, I was induced to try a bottle of your Hair Restorative. Now under and justice compel me to announce to whoever may read this, that I now possess a new and beautiful growth of hair, which I pronounce richer and more abundant than the original was. I would therefore recommend this valuable remedy to all who may feel the necessity of it.

Respectfully yours, REV. S. ALLEN BROCK.

P. S.—This testimonial of my approval for your valuable Restorative, I will send you in a separate letter, but if you think it worthy a place among the rest, insert it as you wish; it not destroy and say nothing.

Yours, &c. Rev. S. A. B.

The Restorative is put up in bottles of three sizes, viz. large medium and small, the small holds a pint and retails for one dollar per bottle; the medium holds at least twenty per cent, more in proportion than the small bottle for two dollars per bottle; the large holds a quart of per cent, more in proportion than the medium bottle. O. J. WOOD & CO., Proprietors, 411 Broadway, New York, and 111 Market Street, St. Louis, Mo. And sold by all good Druggists and Fancy Goods Dealers.
